

Award for Best Innovation in Corporate Social Development

Syrah Resources (Syrah or 'the Company') was very proud to accept the award for 'Best Innovation in Corporate Social Development' at the inaugural Australia-Africa Minerals and Energy Group (AAMEG) Africa Awards, held in Perth on the 4th of September 2019.

The AAMEG Africa Awards recognise mining companies who aspire to enable the local communities surrounding their operations to be engaged meaningfully to reach their full potential, as well as contribute more broadly to the host country's socio-economic development and sustainable growth.

Syrah received this award for delivering the Balama Professional Training Centre (BPTC) to its Host Communities in the Balama Graphite Operation's first year of commercial production.

Syrah's partnership with the Mozambique Institute of Professional Training & Labour Studies (IFPELAC), the Company's efforts building the training curriculum completely in-house and the fact that the trainee selection criteria has been established to drive diversity & inclusion all received special attention.

This is a fantastic team effort that started in June 2017 when the Company signed a Memorandum of Understanding with IFPELAC with close oversight from the Ministry of Labour, Employment & Social Security.

This award further strengthens Syrah's position as an industry leader in sustainable development – congratulations to everyone involved!
